We see activity picking up from the following reasons:

- Pent-up seller demand
- Private Equity Groups wanting to invest money
- Strategic buyers wanting to buy early in the cycle
- Increased foreign buyer interest in the USA
- Capital gains rates increasing in 2011

The above factors have narrowed the gap between buyer and seller expectations, thus the transaction environment feels the best it has since 1H 2008. As the economy strengthens we expect to see increased M&A along with capital raise activity. Further easing of credit conditions will hopefully provide additional “lubrication” in the market.

We are very encouraged by the recent business results of our clients and are seeing a fairly significant pick-up in the business. We recently added our eighth professional, thus doubling our team over the past 16 months. As you can see, I do believe that the M&A climate is improving substantially.

I hope all of you have a great summer!

Business Services Market Update

CHILDS Advisory Partners (“CHILDS”) tracks a list of publicly traded companies in the sectors we follow to gain a better understanding of each sector’s performance. In the first quarter of 2010, the CHILDS Business Services Index continued to outperform the S&P 500 Index.

Note: The CHILDS Business Services Index is made up of select public companies in the following sectors: IT Services, Professional Services, Staffing, Collections/Teleservices/Marketing Services and Industrial Services.

Overall, the business services M&A activity increased in the first quarter of 2010 (returning to the 2008 level of around 300 deals per quarter). We expect this trend to continue in 2010.
